3.7 Reducing the amount of hedging in trading accounts (and for the Underlying Assets that are subject to Hedged Margin) is treated as opening a new position and will result in a proportional (based on the amount) change in Margin requirements on previously opened positions for the corresponding financial instrument.

3.8 The Margin requirements applicable to the different CFDs can be found in the Contract Specifications section on the Website at <https://www.exness.com/contractspecifications/>. If at any time the Equity falls below a certain percentage of the Necessary Margin, specified in the Contract Specifications section on the Website, the Company has the right to close any, or all of the Client's Open Positions without the Client's consent or any prior Written Notice to him. 4.2 The Client agrees that placing a Stop Loss Order will not necessarily limit losses to the intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price and the Company bears no responsibility whatsoever.

5. Trade Confirmations and Reporting

5.1 The Company will provide the Client with online access to his Client Account via the Trading Platform, which will provide him with sufficient information, including information on Order(s) status, Client Account status, Balance in the Client Account and trade confirmations in respect of each executed Order.

Part E: CFD Trading Terms

1. CFD Order Execution

1.1 Orders can be placed, executed and (if allowed) changed or removed within the trading hours for each CFD appearing on the Company's Website, as amended by the Company from time to time and if they are not executed they shall remain effective through the next trading session (as applicable). All open spot positions will be rolled over to the next Business Day at the close of business in the relevant Underlying Market, subject to the Company's rights to close the open spot position. Any open forward positions will be rolled over at the expiry of the relevant period into the next relevant period subject to the Company's rights to close the open forward position.

1.2 The Company shall not be obliged to arrange for the execution of the Client's Orders in respect of any CFD out of normal trading hours which appear on the Company's Website.

1.3 Orders shall be valid in accordance with the type and time of the given Order, as specified by the Client. If the time of validity of the order is not specified, it shall be valid for an indefinite period. However, the Company may delete one or all Pending Orders if the Client Account Equity reaches zero and/or for any other justifiable reason.

1.4 Orders cannot be changed or removed if a trade confirmation is sent or they are executed or being executed or the market is closed. The Client has no right to change or remove Sell Limit and Take Profit if the price has reached the level of the Order Execution.

1.5 The Client may change the expiration date of Pending Orders.

2. Quotes

2.1 The Company provides Quotes by taking into account the Underlying Asset price, but this does not mean that these Quotes are within any specific percentage of the Underlying Asset price. When the relevant Underlying Market is closed, the Quotes provided by the Company will reflect what the Company thinks to be the current Bid and Ask price of the relevant Underlying Asset at that time. The Client acknowledges that such Quotes will be set by the Company at its absolute discretion.

2.2 It is hereby acknowledged and understood that any Quotes displayed on the Trading Platform and/or Client's Terminal are considered indicative at the time of display and may not be up-to-date with the real-time pricing, owing to various factors beyond the Company's control, including but not limited to, technical conditions such as the transfer rate of data networks, the quality of internet connection which affects the time it takes for the price to reach Trading Platform and/or Client's Terminal after it leaves Company's servers, and rapid market fluctuations. Despite Company's efforts to promptly update all Quotes in the Trading Platform and/or Client's Terminal for real-time accuracy, these factors, and any other factor beyond the Company's control, may lead to the

Trading Platform and/or Client's Terminal showing a stale Quote, and due to this, slippage may also be observed.

2.3 In the event that the Company is unable to proceed with the execution of an Order, with regard to its price or size or for any other reason, the Company may send a re-quote to the Client with the price it is willing to deal.

2.4 The Company will delete Error Quotes (Spikes) from the Trading Server's Quotes Base.

2.5 The Company has the right not to provide Quotes and not execute Orders in case when the price of Underlying Asset becomes negative.

2.6 It is acknowledged that whilst the Quotes displayed on Trading Platform and/or Client's Terminal take into account a variety of factors including market data from various third party external reference sources, they are not taken directly and/or exclusively from one source, and therefore such Quotes may not match Quotes that Client sees elsewhere (including the Quotes of other third trading entities). It is also acknowledged that all prices shown on the Trading Platform and/or Client Terminal are indicative and are subject to constant changes.

2.7 The Client acknowledges and agrees that it is the Client's sole responsibility to actively monitor the Pricing Data, market information, and account positions through the Trading Platforms and Client Terminal.
